Product Description

The quad satellite converter enables the connection of up to 4 satellite receivers! A new, even better version of the converter with improved design, better operation and a gain of up to 70 dB with a noise factor of 0.1 dB. The gain of 70 dB guarantees a quality that is comparable with many times more expensive converters. High-quality, universal quad satellite converter (LNB) MCTV-671 with a noise factor of 0.1 dB. It enables the connection of two satellite receivers or one SAT receiver with one recorder and two independent heads (LNB inputs), e.g.: n-TV decoder, n-box recorder. It works very well in multi-room SAT installations (Telewizja n, Cyfra +, Cyfrowy Polsat).
