Product Description

Ubiquiti UDIM-AT - PoE powered UniFi Light Dimmer

The UniFi Dimmer is a smart in-wall dimmer switch for use with the UniFi LED Lighting System. Powered by PoE, the UDIM-AT is designed to fit in an electrical switch box and networked by Ethernet. Use the intuitive UniFi LED App and EoT Controller to configure the UDIM-AT to control a defined group of LED lights.

- Powered by 802.3af PoE
- Configured and managed by UniFi LED App and UniFi EoT Controller
- For use with the UniFi LED Lighting System
- Configure and control multiple ULED lights
- Fits 1-gang in-wall electrical box
