Product Description

USP-Cable - UniFi SmartPower Cable

USP-Cable is a special DC power cable designed for the SmartPower system. This cable is connecting UniFi switch and the UniFi SmartPower (USP-RPS) from which it will receive power if the built-in power source fails. The cable is 1.5 m long and has special connectors at its ends with a simple tool-free installation.

- Supports UniFi SmartPower Connect
- Toolless plug-and-play design
- 1.5 m long
