Product Description

The lampshade allows you to direct the light. It is suitable for both industrial applications, e.g. in factories or warehouses, as well as for home applications in the garage, garden, workshop, etc. The lampshade allows you to direct the light. Suitable for industrial applications, for example in factories or warehouses, as well as for domestic applications in the garage, garden, workshop, etc. The 2 in 1 function of the lampshade as a reflector allows the light to be better distributed and directed into the room. Therefore, the reflector is perfectly suited, for example for industrial applications, in factories or storage rooms, as well as for domestic applications in the garage, garden, workshop and more. Are you looking for a suitable lamp?
