

Item no.: 376696

MCE293 - 360° Infrarot-Bewegungssensor - mit integr. Dämmerungsschalter

from **7,96 EUR**

Item no.: 376696
 shipping weight: 0.50 kg
 Manufacturer: Maclean Brackets

Product Description

High quality infrared motion sensor sensor With our sensor, you'll save on your electricity bill because the lights will only turn on when you need them! Detection angle: 360° !!! New generation - infrared sensor has high stability, nice and practical design, wide operating voltage range, easy installation and wide detection range. It automatically detects day and night light. It is designed for automatic control of lighting in homes, hotels, offices, staircases, corridors, basements, toilets, etc., and thanks to its IP65 rating, it can also be installed outdoors. Specifications- Rated voltage: 220-240 V/AC- Rated frequency: 50/60 Hz- Ambient illumination: <3-20000 LUX (adjustable).- Time delay: min. 10 sec / 5 min- Rated load: max. 2000W (ordinary incandescent bulb) / 1000W (energy saving bulb)- Installation height: 2.2-4m- Detection distance: max. 8m (<24°C)- Detection range: 360°- Operating temperature: -20 - +40°C- Operating humidity: <93% RH- Motion detection speed: 0.6-1.5 m/s- IP class: IP65- Electric shock protection class: II Set includes- Maclean Energy MCE293 W flat infrared motion sensor- Mounting pins- User manual- Manufacturer's packaging Features- Motion sensor, the operation of which is based on switching on and, after a certain time, switching off the electrical circuit when an object emitting infrared radiation is detected- The sensor has 2 knobs: the LUX knob allows you to adjust the light intensity threshold (thanks to this feature, we can adapt it to operate only from dusk to dawn) and the TIME knob, thanks to which it is possible to adjust the switch-on hold time- Easy mounting with 2 wall plugs (included)- Application: automation of the process of switching on and off electricity, e.g. switching on lights, switching on alarm systems- Thanks to the IP65 protection class, the sensor can be mounted outdoors- Motion detection angle: 360°- Detection distance: up to 8 meters
