Product Description

High-quality energy-saving LED panel from Maclean EnergyLED panel for lighting interior spaces such as stairwells, corridors, basements, garages, cloakrooms, toilets, etc. It is made of durable aluminium and PVC. It is made of durable aluminium and PVC. The Maclean Energy LED panel is the best solution for your office, shop or home. It is an alternative to conventional ceiling lights. The opal lampshade ensures even light distribution. The use of flicker-free technology prevents the LEDs from flickering. Spending long periods of time in rooms lit by flickering panels can lead to fatigue, headaches and concentration problems. Maclean panels contain no harmful substances and are therefore environmentally friendly. They fit perfectly into suspended ceilings. It is possible to mount the panels in a special mounting frame and with fixing cables, which are also available for sale. Technical data:- Input voltage: AC 220-240V- Mains frequency: 50/60 Hz- Tightness class: IP20- Power: 40W- Luminous flux: 3200 lm- Light colour: neutral white- Service life: 30000 hours- Number of switch-on and switch-off cycles: 20000- Beam angle: 110°- Operating temperature: -20° to +35°- Dimensions: 595 x 595 x 8 mm- Does not work with dimmers
