

Item no.: 376812

MCE203 - Infrared motion sensor, range 12 m, 180°, max. 1200W

from 6,24 EUR

Item no.: 376812 shipping weight: 0.20 kg Manufacturer: Maclean Brackets

Product Description

Thanks to the MCE203, you save electricity costs because the lighting is only switched on when needed! The sensor is used to automatically control lighting or other electrical devices. It also works with LED lighting. New generation The product is characterised by high sensitivity thanks to the use of an integrated circuit. The infrared sensor has high stability, a beautiful, modern and practical appearance, a wide operating voltage range, easy installation and a large detection area. Automatically detects day and light at night. SMT technology used, compliant with European standards.180°The sensor has a detection angle of 180° and a wide range of manual adjustment options. It is designed for automatic lighting control in houses, gardens, hotels, offices, stairwells, corridors, basements, toilets, etc.Technical specifications:- Power supply: 220-240 V/AC- Detection angle: 180°- Mains frequency: 50/60 Hz- Detection range: max. 12 m (<24 °C)- Light intensity: <3-2000LUX (adjustable)- Time delay: Min. 10 sec. ± 3 sec. / Max. 15 min. ± 3 min-Operating temperature: -20/+40°C- Operating humidity: <93 % RH- Power consumption: ~0.5 W- Max. Load: 1200 W (resistive load) / 300 W (inductive load)- Installation height: 1.8-2.5 m- Speed of detected movement: 0.6-1.5 m/s- Sensor dimensions (mm): 85 / 92 / 64- Protection class: IP44Scope of delivery- Maclean Energy MCE203 modern infrared motion sensor- Mounting accessories (screws + plugs)- User manual- Original packaging- Proof of purchase
