from **72,71 EUR**

Item no.: 327850

shipping weight: 0.30 kg

Manufacturer: Gigaset Communications

Product Description

Gigaset - Handset CL660HX

One for all: The CL660HX universal handset is suitable for all common Internet routers, e.g. for the FRITZ!Box, the Telekom Speedport and many other models. You thus automatically use state-of-the-art Internet telephony and with the CL660HX you benefit from natural sounding audio quality in HD Voice. In addition you have numerous convenience functions at your disposal: a router-internal answering machine, access to the router's telephone book as well as lists of incoming, outgoing and missed calls. Manage all your contacts more easily than ever before using the Gigaset QuickSync software! The large address book of the CL660HX offers space for up to 400 entries with three telephone numbers each. You can quickly synchronise these numbers from your PC or Mac – very quickly via micro USB and with the address books of MS Outlook, Windows or Google Cloud. It's also possible to synchronise contacts with pictures. Another practical feature: VIP numbers and the birthday reminder function for particularly important people and events.
