from **45,33 EUR**

Item no.: 386310

shipping weight: 0.10 kg

Manufacturer: Snom Technology GmbH

### Product Description

A DECT option for your Snom desk phone. Flexible hands-free communication when making calls and an uncomplicated conference solution are often essential in everyday office life. The Snom A230 DECT dongle expands your Snom desk phone (with USB connection) to include the option of connecting the Snom A150 headset (which comes with the Snom A230 DECT dongle) and, in conjunction with the Snom C52-SP, adds a flexible conference solution to all Snom D7xx and D3xx series desk phones with USB connection in just three steps. And without any technical effort or additional phone number. You simply use the existing Snom desk phone as usual. The Snom A230 DECT USB dongle is connected via the existing USB port of the Snom desk phone and serves as a DECT base from then on. Once a connection has been established from the Snom A230 to the Snom C52 SP and or Snom A150, calls can be made directly via it. Features- Adds a DECT option to Snom phones- Enables the connection Snom A150 and Snom C52-SP- Plug & Play- Pairing button with LED
