Product Description

The flexible and mobile extension speaker For anyone who regularly holds conference calls in large rooms or with many people, the Snom C52 SP is the perfect solution as an extension to the Snom C520 WiMi. The Snom C52 SP can be placed in rooms up to 50 metres away using wireless DECT radio technology. Thanks to the two integrated microphones and the powerful speaker, the device functions as a high-quality speakerphone with crystal-clear sound. A total of up to 3 C52-SP can be wirelessly paired with a Snom C520 WiMi. Thanks to the fully automatic voice synchronisation of all microphones, every participant is clearly understood. The device also has an extremely powerful rechargeable battery that can easily provide up to 12 hours of talk time. Tip: It can also be connected wirelessly with the Snom A230 DECT-USB dongle to any Snom desk phone that has a USB interface, providing a cost-effective and flexible conferencing solution. Features- Flexible extension of the Snom C520-WiMi- Long range thanks to DECT wireless technology- Full duplex speakerphone- Freely positionable thanks to integrated rechargeable battery
